

A premium digital home *for smart vending.*

A complete strategy, design and development plan for Nafaka Foods' smart snacks and drinks vending service — finalised here with full investment and payment terms.

PREPARED FOR
Nafaka Foods Limited

PREPARED BY
97 Design & Digital

DATE ISSUED
10 September 2026

DELIVERY WINDOW
2 weeks from commencement

TOTAL INVESTMENT
UGX 2,650,000 includes a year of hosting, domain, business email & maintenance

One page. One clear job: *turn interest into a site visit.*

The landing page positions Nafaka Foods as a credible, modern facility partner — not simply a machine supplier. Every section helps a property manager understand the value, see the operating model and take the next step with confidence.

Primary audience — decision-makers

Property owners, facility managers, office administrators and institutional leaders responsible for occupant experience.

Primary conversion — free site assessment

A short lead form opens a pre-filled WhatsApp conversation so qualified prospects can act immediately.

CORE POSITIONING

01 Fully managed

Nafaka supplies, installs, stocks, monitors and maintains.

02 Always available

Refreshments remain accessible beyond normal cafeteria hours.

03 Facility-friendly

Minimal space, clear responsibilities and potential property revenue.

A deliberate conversion *journey.*

The page moves from emotional value to practical proof, then removes uncertainty before asking for the enquiry.

- 01 **Hero**
Immediate category clarity, premium brand impression and site-visit call to action.
- 02 **The opportunity**
Explains the improvement to workplace and tenant experience.
- 03 **Facility outcomes**
Productivity, convenience, modernisation and potential revenue.
- 04 **Service experience**
Products, payments, 24/7 access and the customer journey.
- 05 **Operating model**
Separates Nafaka's responsibilities from the facility's requirements.
- 06 **Rollout process**
Assessment, agreement, installation and ongoing operation.
- 07 **Company credibility**
Nafaka's food expertise, values and Ugandan operating history.
- 08 **Conversion section**
Contact details, enquiry form and direct WhatsApp action.

Designed as a *complete system.*

01 Visual identity

Brand-led colour, typography, spacing, editorial composition and premium art direction.

02 Custom imagery

Separate desktop and mobile hero artwork plus a supporting service visual.

03 Responsive build

Purpose-designed layouts for phone, tablet and desktop – not simple scaling.

04 Conversion tools

WhatsApp lead flow, click-to-call, email, structured enquiry form and clear CTAs.

05 Technical quality

Semantic HTML, accessibility basics, smooth motion, compressed imagery and performance tuning.

06 Launch support

Final review, live deployment, domain connection guidance and handover.

Live in 2 weeks.

Fourteen focused days.

The schedule begins once scope, content and project commencement are confirmed. Feedback is grouped into clear review points to protect momentum.

WEEK 01 / DAYS 1-7

Define & design

- + Kickoff and content finalisation
- + Page architecture and messaging
- + Visual direction and UI design
- + Desktop and mobile image production
- + First design review

WEEK 02 / DAYS 8-14

Build & launch

- + Responsive front-end development
- + Motion and interaction polish
- + WhatsApp and contact integration
- + Cross-device quality assurance
- + Final revisions, launch and handover

Client inputs required — one authorised reviewer, consolidated feedback within 24 hours of each review point, final contact details, domain access when needed and approval of the launch version.

DELIVERY OUTCOME

A polished, responsive landing page ready to present, promote and convert.

A premium landing page *for Nafaka Smart Vending.*
